Profile summary

AI Practice Consultant for practical, people-facing AI adoption. I connect 10 years of architecture and project delivery with hands-on AI prototyping: identifying useful opportunities across design, workplace strategy, engineering, delivery and operations; building lightweight workflows, prompts, prototypes and tools; explaining them clearly; and packaging reusable guidance for colleagues.

Role-fit capabilities

Opportunity Discovery Use-case mapping, problem framing, pilot scope and non-goal definition.	Workflow Prototyping Lightweight prompts, TaskSpecs, demos, prototypes and practical tools.	Enablement & Scaling Colleague support, clear AI explanation, guidance, playbooks and evaluation notes.
---	---	---

AI project experience

AI Practice Consultant 2026.08 / flagship	Architecture AI pilot that turns SU screenshots, structured prompts, design review and team templates into a reusable AI practice workflow.	4 SU-to-render cases; TaskSpec; workflow demo; toolkit for colleague adoption. Repository
BuildLoop AI 2026.08	Construction early-warning loop connecting drawings, BIM, standards, meetings, messages and site reports into reviewable alerts.	283 tests passed; evaluation covers evidence location, risk level and approval drafts. Repository
PeopleOps 2026.07	Traceable HR workflow connecting policy evidence, candidate actions, human approval and audit records.	47 / 47 unit tests; 25 / 25 offline cases; source-grounded actions with approval before execution. Repository

Work experience

2023 - present	North China Municipal Engineering Design & Research Institute Project lead	Public buildings and municipal supporting projects; requirement discovery, cross-discipline coordination and client reporting.
2017 - 2023	Beijing Turenscape Urban Planning & Design Co., Ltd. / Beijing Institute of Architectural Design Co., Ltd. Project lead	Cultural tourism, industrial parks, education and public-service projects; scheme development, client communication and review delivery.
2015 - 2017	Beijing Chuangyan Architecture Design Center Assistant architect	Concept design and scheme refinement for campus, transportation and medical industrial park projects.

Representative delivery	Qihe National Modern Agriculture Industrial Park Integrated Service Center / 52,500 sqm site, 29,000 sqm GFA, 103.8 m ring structure; Yueqing Yanshan summit building proposal / 3,657 sqm, first-prize scheme, long-span timber structure.
-------------------------	---

Education

Capital University of Economics and Business x aSSIST University M.S. in AI and Big Data Engineering / expected September 2027	Inner Mongolia University of Science & Technology B.Arch. / 2010 - 2015
